Introduction to the PA TRAC Widget

A Widget is a window to PA TRAC equivalency information that is embedded in your institution's own website. A Widget allows your institution's website visitors to search for equivalencies contained in the PA TRAC database without leaving your website.

The Widget is visible on your web page.

Introduction to the PA TRAC Widget

The Widget allows visitors to your institution's own website to search for and view equivalency information contained in PA TRAC.

The Widget can be customized to match your website. The theme (color and font) and size of the Widget may be changed using the Widget Builder.

Using the Widget Builder

Customizing the widget for your institution is simple. The Widget Builder is available at *widgets.pacollegetransfer.com.*

Welcome

The Widget Builder allows you to design small gadgets that you can add to your institution's website. These Widgets assist your visitors with real-time information from PAcollegetransfer.com. They are a great way to utilize your investment in PAcollegetransfer.com without having students leave your site.

Getting Started

Before you get started creating your own Widget you may want to view the examples page to see how the Widget can be used. When you are ready, creating a Widget for your website is an easy three-step process:

1. Select options such as your institution name, a theme, and a size on the designer screen.
2. Select the "Get Code" button.
3. Paste the code into an HTML page on your website.
